SRI GNYANA SARASWATHI TEMPLE, BASAR

The motif presented on the cover page is Goddess Saraswathi - Goddess of knowledge and learning in the temple of Sri Gnyana Saraswathi at Basar village in Mudhole taluk of Adilabad district. Goddess Saraswathi is invoked by Hindus, especially while initiating a child to learning and before commencing any literary compositions, poems, etc. This temple of Saraswathi is a very ancient one and said to be one of the two famous Saraswathi temples in India, the other being in Kashmir. It is believed that after the great Mahabharatha war at Kurukshetra, Sage Vyasa became disgusted with the horrors of war and accompanied by his son Shukadeva and other Rishis, went on a pilgrimage of Dakshinapatham (South India), visited this place on the banks of river Godavari and stayed here for some time for meditation. Hence, the village was originally called as Vyasapuri, which in course of time changed as Vasar and then as Basar.

There are many versions prevalent concerning the origin of this temple. The legend had it that Sage Vyasa during his stay here used to bring daily three handfuls of sand after a bath in the sacred river Godavari and kept it at a place, which transformed as the images of divine trinities Saraswathi, Lakshmi and Kali. According to Brahmandapurana, Adikavi Valmiki installed Saraswathi here and wrote his Ramayana. There is a marble image of Valmiki and his Samadhi (tomb) nearby the temple. Another version is that, this is one of the three temples near the confluence of Manjira and Godavari rivers which is at a distance of 6 kms from Basar, built by Rashtrakutas. According to another school of thought, 'Bijjaludu', a Karnataka King who ruled the province of Nandagiri with Nanded as his capital constructed this temple in the sixth century to celebrate his victory. Some people hold them to be of Chalukyan time. However, Goddess Saraswathi in the temple is being worshipped for several hundreds of years by the people, mostly from the areas of Telangana and Marathwada. Since the images of Saraswathi, Lakshmi and Kali are here, Basar is believed to be the abode of the divine trinities.

Mahasivaratri (February) for 3 days, Devi Navaratrulu for 10 days (September-October) and Vasantha Panchami, 15 days prior to Mahasivaratri are main festivals celebrated in the temple. During the festival of Mahasivaratri, a fair is also organised.

Basar is well connected both by road and railways. Basar Railway station is on the Secunderabad-Manmad metre gauge line of South - Central Railway. Regular buses of Andhra Pradesh as well as Maharashtra State Road Transport services ply from many parts of these States to Basar. The Tirumala Tirupati Devasthanams Guest House and Choultry provide lodging facilities to the visitors.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in the local area planning but in the regulating of the provision of goods and services as well as in minimising the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Information on adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section I & II of the volume contains village and town directory and Section III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S S Jaya Rao, I A S, Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr N G Nag, Deputy Registrar General (Social Studies) of my office, Dr, B K Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M M Dua, Senior Research Officer. I am thankful to all who have contributed in this project

P PADMANABHA
Registrar General, India

P R E F A C E

The District Census Handbook, a valuable publication containing census information has become a constant guide in the fields of planning and administration right from the village to State level, besides serving the needs of academicians and researchers. This publication provides Primary Census Abstract data upto grass root level for both rural and urban areas. It also provides data on infrastructure and amenities available in villages and towns.

Sri P Padmanabha, IAS, Registrar General, India, in his foreword has succinctly explained the scope and contents of District Census Handbook from 1951 to 1981. A review of this publication for the last three decades reveals tremendous improvement in the presentation of data. The District Census Handbook of 1981 Census comprises of two parts – Part A – detailed analytical note supported by a number of inset tables based on census and non-census data in relation to infrastructure and Part B – Village and Town directory as well as Primary Census Abstract of villages and towns, and these two parts are composed in a single volume. An attempt has been made to provide exhaustive data on infrastructure aspects to meet the Minimum Needs Programme of the Planning Commission. Certain new features like, location of adult literacy centre, availability of the services of community health worker and method of approach to village, in the village directory format and certain additional features like access to adult literacy programme, existence of working women's hostel and presentation of data on civic amenities on notified towns by size class of town in town directory, are sequel to the Minimum Needs Programme.

Analytical notes have been incorporated, explaining the history of the district with changes, if any, of the district or of the taluk or of the villages between 1971–81, besides the census concepts, codes used in various statements and places of tourist interest. District and Taluk maps which are prepared in this office on the basis of maps certified by the competent authorities also have been incorporated. In the district map, just to avoid over crowding, the villages having more than 5,000 population alone have been shown by names. For the rest, one has to refer to the alphabetical list of villages of each taluk, presented in Part B of this publication.

This publication is a joint venture of both Central and State Governments. The processing including compilation, tabulation and finalisation of the write up, is done in the Office of the Director of Census Operations, while the cost of the paper and printing required for this publication is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of publication for 1981 District Census Handbooks. I am grateful to the A P State Government and in particular to the Chief Secretary, Sri S R Rama Murthy, IAS, for his co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for selecting good private presses to print these Handbooks. The data presented in the village and town directories are obtained from the State and Central Government departments, but for whose co-operation, Part A and B of the Handbooks could not have been compiled. I am thankful to all those departments which have provided the data required.

I am extremely grateful to Sri P Padmanabha, IAS, Registrar General and Census Commissioner for India and Dr N G Nag, Deputy Registrar General for formulating the contents of the Handbook in detail. I have also been considerably assisted by Dr B K Roy, Deputy Registrar General (Map) and Sri M M Dua, Senior Research Officer (S S).

The arduous task of collection, compilation, scrutiny and preparation of analytical note of this volume laid heavy burden on the staff of the District Census Handbook section. The credit goes chiefly to Sri B Satyanarayana who worked as Assistant Director as well as Deputy Director of Census Operations.

while handling this subject. He took great pains to tour the districts, contact various officers of the district and culled out information from various sources. Sri Ch. Purnachandra Rao, Deputy Director of Census Operations has scrutinised and finalised the write up of this most important census publication programme. Shri Shyam Deo, Research Officer, ably guided the preparation of the maps included in this publication.

The following officials of my office worked on the present volume of Adilabad District Census Handbook

Smt P Lalitha, Investigator	}	Drafting and Scrutiny and Supervision of Printing
Sri N C Hanumantha Reddy, Tabulation Officer		
Smt P A M Tayar, Tabulation Officer		
Sri T B Ramchander, Statistical Assistant	}	Supervision of Printing
Sri G K Yadagiri, Statistical Assistant	}	Collection, Compilation, Scrutiny of maps and proof reading
Smt. Asmath Pasha, Statistical Assistant		
Sri Khamola, Statistical Assistant		
Sri J Rajagopal Rao, Statistical Assistant		
Smt J Sitamahalakshmi, Statistical Assistant

Smt	Ch Lalitha Kumari, Junior Steno		
Smt	J Bharathi, L D C		
Sri	Md Khaja Moinuddin, L D C		
Sri	Md Ismail, L D C		

I am thankful to their services

My endeavour has been to present data concerning each district as detailed as possible and I hope this volume will prove useful for all data users

S S JAYA RAO

Director of Census Operations

CONTENTS

Part-A	Pages	
1	ix—x	Important statistics of the district
2	Facing Page [1]	Map of the district
3		Analytical note
(i)	[1–3]	Brief history of the district
(ii)	[4–10]	General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular
(iii)	[11–12]	Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc
(iv)	[13–15]	Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district
(v)	[16–18]	Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc
(vi)	[19–30]	The history of district census handbook, scope of village directory, town directory statements and PCA
(vii)	[31–48]	Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons

Part-B Village and Town Directory and Primary Census Abstract

SECTION I – VILLAGE DIRECTORY

(i)	Note explaining the codes used in the Village Directory	1–2
(ii)	Village Directory with Taluk Map on facing page of alphabetical list	
1	Adilabad Taluk	3–19
2	Utnur Taluk	21–23
3	Wankadi Taluk	35–43
4	Asifabad Taluk	45–55
5	Sirpur Taluk	57–75
6	Chinnur Taluk	77–93
7	Lakshettipet Taluk	95–109
8	Khanapur Taluk	111–121

9	Boath Taluk	123–137
10	Nirmal Taluk	139–157
11	Mudhole Taluk	159–173
(iii)	Appendices (I-IV) to the Village Directory	174–204
(iv)	L C Nos for three decades (1961 to 1981)	205–256

SECTION II – TOWN DIRECTORY

(i)	Note explaining the codes used in the Town Directory	257–258
(ii)	Town Directory statements (I to VI and IV A)	260–273

SECTION III – PRIMARY CENSUS ABSTRACT

(i)	District PCA	276–281
(ii)	Taluk-wise PCA	
(a)	1 Adilabad Taluk	283–298
	2 Utnur Taluk	299–311
	3 Wankadi Taluk	313–321
	4 Asifabad Taluk	323–335
	5 Sirpur Taluk	337–355
	6 Chinnur Taluk	357–369
	7 Lakshettipet Taluk	371–387
	8 Khanapur Taluk	389–395
	9 Boath Taluk	397–409
	10 Nirmal Taluk	411–472
	11 Mudhole Taluk	429–441
(b)	Description of Urban Enumeration Blocks	442–456
(c)	Appendix to Urban PCA	457–475
(iii)	Special PCA on SC and ST	476–483

PART A

ANALYTICAL NOTE

HISTORY

Adilabad district, prior to 1905, was a sub-district by name Sirpur-Tandur and extended over an area of 5,029 square miles. It then consisted of only three taluks, viz, Edlabad (Adilabad), Rajura and Sirpur besides a few Jagir villages. In 1905 the erstwhile Hyderabad Government effected a general reconstitution of the divisions and districts in Hyderabad State during which Sirpur-Tandur sub-district gained two taluks, viz, Narsapur and Nirmal from Nizamabad (Indur) district and two taluks, viz, Chinnur and Lakshettipet from Karimnagar (Elgandal) district and the sub-district was upgraded into an independent district known as Adilabad district. The northern portions of Narsapur and Nirmal taluks and a part of Edlabad (Adilabad) taluk were clubbed and constituted into a new taluk called Kinwat. The remaining portion of Narsapur was merged with Nirmal taluk. In between Sirpur and Lakshettipet taluks a new taluk by name Jangaon was created by grouping together villages from both the taluks. This taluk was later renamed as Asifabad taluk. A new Paigah taluk of Yelgadap was also constituted then. During the following decade of 1911-1921, the taluks were again reorganised so as to allow the formation of the new taluks of Utnur and Boath. During the decade 1941-51 Yelgadap-Paigah taluk was renamed as Khanapur Independent Sub-Taluk.

In November, 1956, when the Reorganisation of States was made and Andhra Pradesh was formed, a major portion of this district along with the other eight districts of Telangana became part of Andhra Pradesh. The predominantly Marathi speaking taluks of Rajura and Kinwat and Islapur circle of Boath taluk were transferred to Maharashtra State while this district gained Mudhol taluk except Dharmabad circle i.e., Mudhol, Kuber and Bhainsa circles from Nanded district. These three circles were constituted into Mudhol taluk. The district did not undergo any major territorial change in its jurisdiction after November, 1956. Very little is known about the early history of Adilabad district before it became part of Hyderabad State. A brief early history of Deccan of which Adilabad district formed part is, however, given below.

Early Hindu Period

In pre-historic times, the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta, they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D., but the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Badami. Pulakesin II (608-42 A.D.), ruled practically the major portion of south India from the Narmada river and even came into contact with Harshavardhana of Kanauj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of the eighth century, the Chalukyas were displaced by the Rashtrakutas of Mulkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, in spite of fierce struggles with the Cholas and Hoyasalas of Dwarasamudra. The Chalukya power fell by about 1189 A.D., yielding place to the Hoyasalas and Yadavas, the later of whom established themselves at Devagiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan Period

Alla-ud-Din Khlji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Devagiri and coerced him into submission. In 1296 he assassinated his own uncle and seized the throne, and sent an expedition to Devagiri. His first expedition was dispatched in

1303 against the Kakatiya kings of Warangal, who had established themselves there since the middle of the 12th century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad-bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1323. In 1310 Malik Kafur was sent against the Hoyasala Raja of Dwarasamudra (Halebid in Mysore). In 1318 when Harpal, the Devagiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne in 1325 at Delhi, the Muhammadans were masters of the Deccan from North to South, the chief Rajas of Telangana acknowledged their sway and paid tribute. He changed the names of Devagiri to Daulatabad and made it his capital. A few years later the Imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Ala-ud-Din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced to reign in 1347 A.D. The Bahmani kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tracts in the east. After the fall of this dynasty, the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani kingdom after the downfall of the Bahmani dynasty had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan kings against the Rajah of Vijayanagar and in the memorable battle near Rakshasi Tangadi the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Sultan Quli Qutb-ul-Mulk, a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutb Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders they fell out among

themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdulla Qutb Shah. In 1635 A.D. Shah Jahan who had then become the emperor, sent a *farman* to Golconda which was well received. Mir Jumla, the king's Minister, appealed to Aurangzeb for help against his master in 1655 A.D. and this afforded a pretext for Aurangzeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangzeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutb Shahi line ended. This dynasty was followed by Asaf Jahi Dynasty to which the present Nizam belongs. The Asaf Jahi Dynasty was founded by Asaf Jah, a distinguished General of Aurangzeb, a Turkoman by descent. After a long service under the Delhi emperor he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizam-ul-Mulk, which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal dissensions and attacks from without. Amidst the general confusion, Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and put to death. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Adilabad district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung, his second son, and Muzaffar Jung, his grandson by one of his daughters strove for succession. At this time the English and the French were contending for supremacy in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was

proclaimed the sovereign Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-Din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first now appeared as a claimant, supported by the Marathas but his sudden death put a stop to further struggles. The English and the French were then contesting for power and influence in the Deccan, but the victories of Clive in the Carnatic caused latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in time of war and received 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800, a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him

under the treaties of 1792, and 1799, i.e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the 'ceded districts' of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nazir-ud-Doula succeeded. Nazir-ud-Doula died in May 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869, on the death of Afzal-ud-Doula, his son Mir Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent, the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half brother Nawab Vikar-ul-Umara was appointed as co administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and regent till his death in 1883. In 1884, Mir Mahbub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne.

In 1947 when the country attained independence the princely States were given the choice either to remain independent or to join the Indian Union. The Nizam's Dominions became part of Indian Union in 1948 as a Part 'B' State. In 1956, during the Re-organisation of States the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga, Bidar were transferred to Mysore State while the Marathwada area comprising the five districts of Aurangabad, Osmanabad, Bhil, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking, was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

PHYSICAL ASPECTS

General The district derived its name from Adilabad, its headquarters town which was named after the ruler of Bijapur Ali Adil Shah. It lies between 77°46' and 80°0' of the eastern longitude and 18°40' and 19°56' of the northern latitudes. Adilabad district, situated in the northern most part of Andhra Pradesh, is bounded on the north by Yeotmal and Chanda districts of Maharashtra State, on the east by Chanda district, on the South by Nizamabad and Karimnagar districts and on the West by Nanded district of Maharashtra State.

In 1905, the status of this sub district was raised to that of an independent district, with Adilabad as headquarters. It gained the taluks of Narsapur and Nirmal from Nizamabad (Indur) district, Chinnur and Lakshettipet taluks from Karimnagar (Elgandal) district. Adilabad district at present has 11 taluks. They are 1) Adilabad, 2) Utnur, 3) Wankadi, 4) Asifabad, 5) Sirpur, 6) Chinnur, 7) Lakshettipet, 8) Khanapur, 9) Boath, 10) Nirmal and 11) Mudhole.

Hills The Sahyadriparvat or Satmala range traverses the district from the north-west to the south-east for about 281.5 kms. In this range the Mahabubghat is the highest peak. Other hills on the eastern side are of minor importance.

Soils Red loamy soils derived from the granites cover the Archaean country. Shales, limestones and to some extent sandstones of the Penganga and Sullavai series yield fine, red or grey dusty to loamy soils. Coarser and reddish soils are present over the Barakars and Kamthis while those on the Talchirs are fine and sandy. The thickness of the soils on the Gondwanas is deeper extending upto 5 metres. The thickness of soil on other formations rarely exceeds 1.5 metres. The traps on weathering give rise to deep brown to red soil or to black cotton soils (Regar).

Rivers River Godavari is the most important river that drains this district. The other rivers are the Penganga, the Wardha, the Pranahita, the Kadam and the Peddavagu which are the tributaries to the Godavari. The Godavari, which is the largest river in peninsular India rises in the western ghats at Triambak near Nasik in Maharashtra State and enters this district near Basar in Mudhole taluk. Penganga forms part of the northern boundary of the district in Adilabad taluk, while Wardha and Pranahita rivers form the northern and eastern boundaries of the district respectively. The Godavari forms the southern boundary separating Adilabad district from Nizamabad and Karimnagar districts. River Penganga falls into river Wardha which in turn joins the Pranahita. All the three rivers ultimately join the Godavari in Chinnur taluk.

Climate The climate of this district is characterised by a hot summer and is generally dry except during the south-west monsoon season. The year may be divided into four seasons. The cold season from December to February is followed by the summer season from March to May. The period from June to September constitutes the south-west monsoon season, while October and November form the post monsoon season.

Rainfall The rainy season starts in June and ends in September. The rainfall in the district increases from the south-west towards the north-east. About 85 per cent of the rainfall is received during the rainy season. July is the rainiest month. The average annual rainfall in the district is 1049.4 mm†.

Flora Nearly 40 per cent of land in Adilabad district is covered by forests. The tropical dry deciduous forest has been stable for centuries and

Monthly and Annual Rainfall table for the year 1978, Page 101

is the climatic climax type of forest and enjoys an annual rainfall of 1049.4 mm. A few edaphic climax types are found here and there. The clayey calcareous soils produce a gregarious crop of *Acacia leucophloea* (Tella Tumma). The eroded sandy soils produce *Acacia Sundra* (Sandra) or *Soymida Febrifuga* (Somi). Apart from the above, these forests consist of teak, ebony, sandalwood, rosewood, bilgu (*Chloroxylon Swietenia*), Jittigi (*Dalbergia latifolia*) bijasal (*Pterocarpus Marsupium*), dhanra (*Anogeissus Latifolia*), tamarind, mango, margosa and Kuchla (*Nux Vomica*). The forests provide raw materials to the building industry and also large quantity of firewood.

Fauna: The fossil finds indicate that there has been a complete evolutionary continuity of life in Adilabad from Palaeozoic era to Cenozoic era. In spite of ruthless destruction of wild life, the fauna of the district is still rich. The tiger (*Panthera tigris*), leopard (*Panthera Pardus*) and hyaena (*Hyaena hyaena*) are found in the deep jungles. The wolf, the jackal and the fox, the sloth bear, wild boar, Indian bison, antelopes, gazelles and deer, black buck, Nilgai or blue bull etc., are the other animals found in the forests of this district. Among the birds, the peafowl, peacock, parrots, myna and the grey partridge are common. There is one game sanctuary called Kawal sanctuary with all species of wild life but they are not able to thrive well due to inadequate water facilities.

Changes in Administrative units and component parts Adilabad district was for long not a homogeneous unit and its component parts were ruled at different periods of time by various dynasties, namely, the Mauryas, Satavahanas, Vakatakas, Chalukyas of Badami, Rashtrakutas, Chalukyas of Kalyani, Yadavas of Devagiri, Kakatias, Bahmanis, Imad Shahis of Berar, Nizam Shahis of Ahmadnagar, Mughals, Bhosle Rajas of Nagpur and Asaf Jahis, besides the Gond Rajas of Sirpur and Chanda. Originally this was not a full fledged district but a sub-district named Sirpur - Tandur which was created in A.D. 1872 with Edilabad (Adilabad), Rajura and Sirpur as its constituent taluks. In 1905 the status of this sub-district was raised to that of an independent district with headquarters at Adilabad. It gained the taluks of Nirmal and Narsapur from Nizamabad (Indur) district and Chinnur and Lakshettipet from Karimnagar (Elgandal). In this process, the northern portions of Nirmal and Narsapur and a part of Edilabad were formed into a new taluk, Kinwat, while the remaining portion of Narsapur

was included in Nirmal taluk. In the same year a new taluk by name Jangaon (later changed as Asifabad in 1907) was carved out midway between Sirpur and Lakshettipet consisting of villages from these two taluks. By 1905, the district comprised 8 taluks in all viz., 1) Rajura, 2) Adilabad, 3) Sirpur, 4) Jangaon, 5) Lakshettipet, 6) Chinnur, 7) Nirmal and 8) Kinwat. In addition to the above 8 taluks, another taluk Yelgadap Paigah during the decade 1901-1910 was constituted. This taluk was renamed as Khanapur sub-taluk in 1949. In the following decade the taluks were again re-arranged to enable the constitution of two new taluks of Utnur and Boath.

In the same decade during the year 1913-14, the headquarters of the district was shifted to Asifabad owing to administrative exigencies. Since then, the district did not undergo any major territorial change till 1956. Under the States Reorganisation Act of 1956, Adilabad district lost the predominantly Marathi speaking taluks of Rajura and Kinwat and the Islapur circle of Boath taluk to Bombay (subsequently renamed as Maharashtra) State but gained from Mudhol taluk of Nanded district, the revenue circles of Mudhol, Kubeer and Bhainsa (Bhansa) which were constituted into Mudhole taluk. Thus the district comprised 10 taluks including an independent sub-taluk. The taluks are Adilabad, Boath, Utnur, Asifabad, Sirpur, Chinnur, Nirmal, Mudhole, Lakshettipet and Khanapur (independent sub taluk). Thence forward the district did not experience any territorial change and the number of taluks remained same both in 1961 and 1971 censuses. The revenue divisions and their constituent taluks in the above two censuses were as follows:

Name of the Revenue Division (1)	Constituent Taluk (2)
Adilabad	1 Adilabad 2 Boath 3 Utnur
Asifabad	1 Asifabad 2 Sirpur 3 Chinnur
Nirmal	1 Nirmal 2 Mudhole 3 Lakshettipet 4 Khanapur

At the 1981 census, the district has 11 taluks and they are divided under the following three revenue divisions:

STATEMENT SHOWING THE REVENUE DIVISIONS IN ADILABAD DISTRICT, 1981

Sl. No	Name of Sub-division/ Revenue Division	Name of Taluk	Name of Town (M)/(P)
1	2	3	4

1. The district "Geographical Area" figures are as supplied by Surveyor General, India.
2. The total of the area figures of taluks will not tally with the district area figures because the former represent land-use area and are derived from the figures supplied by the State Survey Department
3. Villages shown under column 5 do not include the villages under column 8

MAJOR CHARACTERISTICS

Power: The history of power supply in the district dates back to 1341 F (1931-32) when it was proposed by the then Nizam's Government, to supply electricity to the towns of Nirmal and Bhainsa (Bhaisa) under the Kadam hydro-electricity scheme. In the years that followed, demand for electricity in the district for domestic as well as agricultural and industrial activities considerably increased. This demand could be met from the Nizam Sagar Hydro-Electric Project which was commissioned in 1956 and the Ramagundam Thermal Station started during 1960-61.

Of the 1,559 villages in 1981, 679 are provided power supply constituting 43.55% of the total villages in this district.

Minerals and Mining: The coal is found extensively in Asifabad, Tandur, Kanara and north Godavari fields. Of these, Tandur, Kanara and north Godavari are being developed. Tandur collieries are on the Kazipet-Balharshah line of the Central Railway in Adilabad District. The reserves of these collieries are of the order of 100 miles upto 1,000 feet depth, and 200 miles upto 2,000 feet depth. Intensive drilling is being taken up by Geological Survey of India to find out coal belt.

Limestone: There are extensive deposits of Cement grade limestones belonging to the Penganga series in this district. The chief deposits are found in north-west of Mancheriyal and Asifabad. The former has reserves of 600 MTT of limestone suitable for cement industry and is being worked out for the Mancheriyal Cement Works. Geological Survey of India is investigating in detail the deposits in Asifabad to find out its suitability for Iron and Steel Industry.

Iron Ore: Low grade iron ores, viz., Magnetite and Hematite occur in Dharwan schists at Chiyyal and Yelgadep (Khanapur Taluk), Kalleda and Rebanpalle of Lakshettipet taluk and Birsanipet of Utnur taluk.

Clays: Extensive deposits of pure and dirty clays associated with Kota-Maleri beds of Gondawans occur near the villages of Pachgaon, Rallapeta, Katgala and Buttenal of Asifabad taluk.

The clays are useful in the manufacture of potteries, Chinaware, Pipes, Fire bricks and sanitaryware etc.

Land and Land use pattern: An extent of 83,542.83 hectares of land is available for assignment out of which 72,350.10 hectares has been assigned to the landless persons. The total cultivable area is 602,870 hectares and gross irrigated area is 37,033 hectares.

Agriculture: This sector is being paid much emphasis by covering large area under high yielding variety of food and cash crops by supply of required agricultural inputs and also providing improved agricultural and plant protection implements, imparting training to tribal farmers etc. Supply of ploughs bullocks is also taken up to the needy cultivators besides paying attention to the new assignees, scheduled caste and scheduled tribes who have been restive with land under land transfer regulation Acts.

Animal Husbandry: Animal Husbandry programmes are initiated mainly to provide dependable source of livelihood to tribals in the district. Milch cattle are being provided where extensive grazing facilities are made available in the villages. Only in the summer scarcity of green grass (fodder) is seen in most of the places in the State. Sheep units are being encouraged in the interior villages for upgradation of livestock, besides providing and strengthening of the veterinary dispensaries to cater to the needs of the rural people who are mainly depending on the livestock, by way of supplying exotic bullocks and life saving drugs. Establishment of Mini-milk Cooling Centre is also taken up.

Fisheries: The fishing potential of this district is considerably rich with its perennial sources like the river Godavari, the Penganga, the Wardha, the Pranahita, the Kadam and many other minor streams besides about 1,000 tanks. These tanks are rich in fishing wealth, as they are directly or indirectly served by the river Godavari or its tributaries.

In recent years, the development of fisheries has been viewed in the context of food problem and the Department of Fisheries which took charge of this activity is represented by an Assistant Director with his headquarters at Nizamabad. The activity of the department includes the development of fisheries by culture and protection, conduct of survey, research, and biological study of fishes. The fishermen in the district organised themselves into co-operative societies to better their lot.

Industries: The large scale industries functioning in the district are, the Sirpur Paper Mills, and Sirsik Factory at Kagaznagar, the cement factories at Adilabad and Mancheriyal, and the Co-operative Spinning Mills at Adilabad and Natraj Spinning Mills at Nirmal represent important industries of the district. Among cottage industries, the Toy industry of Nirmal has earned spectacular reputation both within and outside the country.

Transport & communication facilities Rail facilities are inadequate in this district. Broadgauge line passes through this district connecting (between Kazipet and Delhi) from south to north through Lakshettipet, Asifabad and Sirpur. A meter-gauge railway line runs from Muthkhed to Adilabad, Kachiguda-Manmad metergauge line just passes through the southern most tip of Mudhole taluk, Khanapur, Nirmal, Boath and Utnur taluks are not having rail facilities at all. Highway number seven from Hyderabad to Nagpur Road provides communication and transport facilities to Nirmal, Boath, Khanapur and Adilabad taluks. Communication and transport facilities are available from taluk headquarters to the district headquarters. However, still a lot is to be achieved in this regard to facilitate rural folks to have links with their counterparts staying in the towns of the district and so also of the State.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological Importance : Places of religious institutions (temples) and mutts and of historical or archaeological

importance in the district are presented in the following statement for the convenience of the reader

STATEMENT SHOWING THE MONUMENTS / TEMPLES AND MUTTS IN ADILABAD DISTRICT

Places of Tourist Interest

Jainad (Adilabad Taluk) : Jainad is a village at a distance of 21 kms from Adilabad. A prakrit stone inscription with 20 slokas in this temple mentions that it was built by a Pallava chief. The temple has all the features of the Jain style of temple architecture. Therefore the village obtained the name Jainad. The Lakshminarayana-swami Brahmotsavam celebrated from *Karthika Suddha Astami* to *Bahula Saptami* attracts a large number of devotees.

Bellampalle (Asifabad Taluk) This town is situated on the Mancheriyal - Asifabad road. This place attained importance owing to the existence of coal mines. On an average, the annual output is about 25,000 tons. The most important places of worship here are the Jangam Mahadeva Math and the Church of South India.

Kuntala (Boath Taluk) : This village is located on the banks of the Kadam river at a distance of 12 kms from the Hyderabad - Nagpur national highway. It is at this village that the river Kadam falls from a height of about 45 metres and enters Khanapur. The waterfalls known as the Kuntala waterfalls is the highest in A P and affords a picturesque scenery. Near the waterfalls, there is a Sivalingam known as the Somesvaraswami which has to be reached through an opening in the rock.

Chinnur (Chinnur Taluk): Chinnur town lies at a distance of 38 kms, from the Mancheriyal Railway Station. It is noted for hardstick industry and carpentry. The temples of Siva, Jagannadha and Pochamma are the places of worship for the Hindus.

Kadam Dam Site (Khanapur Taluk): The Kadam project known as the Godavari north canal project, is situated at Peddur village and is at a distance of 19 kms from Khanapur. The main dam site is about 6 kms. from the confluence of the Godavari and Kadam rivers and the dam has been constructed across the Kadam which is a main tributary of the Godavari. The site of the dam amidst picturesque surroundings, is a pleasant spot.

Mancheriyal (Lakshettipet Taluk): This town is situated at a distance of about 26 kms. from Lakshettipet. This town is noted for its cement factory and is connected with Lakshettipet, Chinnur and Asifabad by road on which buses ply regularly. The town is equipped with all the facilities of an urban unit.

Mandamarri (Lakshettipet Taluk) It is a village situated at a distance of 12 kms from Mancheriyal, this place is known for its coal mining activity. The coal mines here are known as Kalyan Khan and are situated on the right side of the Asifabad-Macheriyal road.

Basar (Mudhole Taluk) Basar is a village which is situated on the banks of the Godavari at a distance of one and a half kilometres from the Basar Railway Station of the Secunderabad-Manmad metre gauge line of the South Central Railway. It is at a distance of 14 kms from Mudhole. This place has one of the two temples dedicated to Saraswathi in the whole of India, the other being in Kashmir. The celebration during Mahasivaratri in February - March and Devi Navaratrulu (September - October) attract a large number of pilgrims from all parts of Telangana and Marathwada.

Nirmal (Nirmal Taluk) Nirmal town is situated at a distance of 58 kms from the Dichpally railway station and 64 kms from the Nizamabad Railway Station. This town is connected by road with Hyderabad, Adilabad, Khanapur and many other important places. A large fort stands in the centre of the town and it includes the ruins of an old palace. The main fortifications, built by French Engineers in the Nizam's service are still in a state of good preservation and some of the guns are still in tact. Three towers on these fortifications appear to have been made for boring ordnance. Bateesghar and Sarad Mahal are the places of local interest. Nirmal is famous for its toy industry. The availability of light but strong wood suitable for toys in the nearby forests is a contributing factor for this flourishing industry. Recently this exquisite technique of decoration has been applied on a large scale in manufacturing Nirmal Plates which contain painting of Lord Buddha, Nataraja, Moghal miniature paintings, floral designs and illustrations from the famous Ajanta frescoes. All these paintings and furniture articles arouse the interest of any beholder for the exquisite creative craftsmanship. They command a good market both at home and abroad. The shrine of Venkateswara is an important place of Hindu worship. The Lakshmi Venkateshwaraswami Brahmotsavam celebrated for seven days is attended by a very large gathering. Apart from this, Shaik Saheb Vali Urs, Haq Raiaz Saheb Urs, Kammal Pasha Urs, Masum Shah Urs, Inamuddin Urs are the Muslim festivals at Nirmal.

Soan (Son) (Nirmal Taluk) . This village lying on the banks of the Godavari is at a distance of

12kms from Nirmal by road It derived its name from a fort Soangadh which is now in ruins There is a bridge popularly known as the Soan bridge across the Godavari which connects Adilabad with Nizamabad

Kagaznagar (Kothapet) (Sirpur Taluk) Kagaznagar town is situated at a distance of about 21 kms from Sirpur on the Kazipet-Balharshah broad-gauge line of the South Central Railway This was formerly known as Kothapet This town is famous for Sirpur Paper Mills and Sirsik factory It is thus an important industrial centre.

Keslapur (Buzurg) (Utnur Taluk) Keslapur is situated at a distance of 25 kms, from Utnur and about 32 kms from Adilabad The famous Nagoba temple, with a stone image of Seshanag (Serpent God) attracts a large number of devotees During the month of pushya (December-January) all people irrespective of caste and creed, visit the Keslapur Jatara, the famous fair held at Keslapur in the name of Nagoba, the snake God People from all parts of district and also Gonds and other tribes from neighbouring Maharashtra State take part in large numbers.

CENSUS CONCEPTS

Rural and urban areas It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census

- i) A minimum population of 5,000,
- ii) At least 75% of the male working population is in non-agricultural pursuits,
- iii) A density of population of at least 400 persons per sq km

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural activities and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the

1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion

The towns are distributed into six classes as detailed below

Classification of towns	Population size
Class I	100,000 and above
Class II	50,000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	below 5,000

The class I towns are termed as cities

Standard Urban Areas Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and the same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban area are — (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to

some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripheral units.

Urban Agglomeration Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes

- a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages),
- b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a),
- c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State, viz, Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House - A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes or which shall for the purpose of the constitution be deemed to be Scheduled Castes/Scheduled Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, Amendment Act, 1976, notified under the Government of India, Ministry of Home Affairs Notification No BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person, who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows

“Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.”

In the concept of work significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a ‘worker’ engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal)

work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have a detailed profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers: All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories:

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work,

2. Students i.e., all full-time students or children attending school,
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work,
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent
5. Beggars, etc., i.e. beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work,
6. Institutional inmates, i.e., a convict in a jail or an inmate of penal, mental or charitable institution, and
7. Other non-workers—all non-workers who may not come under any of the above six categories

Marginal Workers: A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz, the District Gazetteers consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after 1931 Census. Due to the World War II, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R A Gopala Swamy, I C S the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz, General Population Tables, Economic Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the

Handbook, giving the village-wise and town-wise primary census abstract i.e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census - At the 1971 Census it was decided to enlarge the scope in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons—1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below.

Part A Village and Town Directory

Part B Village and Town Primary Census Abstract

Part C Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However, the printing of Part C was given up.

Pattern at 1981 Census - At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume the grouping of which would enhance the value of the publication as the data given therein are closely interrelated.

Part A : Village and Town Directory

Part B - Village and Town-wise Primary Census Abstract

It has been decided not to go in for administrative statistics that the Part C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Cols 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc. has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below.

- 1 Forest (Col 15) These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.
- 2 Cultivated area with break-up irrigated and un-irrigated (Cols 16 & 17) This includes the land under the following three categories
 - (i) *Net area sown*
The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) *Other fallows* -

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerative nature of farming, etc.

(iii) *Current fallows*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

- 3 Culturable Waste (Column 18) This includes the land under the following three categories.

(i) *Permanent pastures and other grazing lands* -

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) *Miscellaneous tree crops, groves not included in the area sown*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) *Culturable waste* -

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Col 19) This includes the land under the following two categories.

(i) *Land put to non-agricultural uses*

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural

(ii) *Barren and uncultivable land*

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only sometime in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission

Scope of Town Directory. There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These

statements are almost similar to those adopted in 1971 Census except for a few additional columns. The titles of the statements are as follows.

Statement I : Status and growth history

Statement II : Physical aspects and location of towns, 1979

Statement III : Municipal Finance, 1978-79

Statement IV : Civic and other amenities, 1979

Statement IVA : Civic and other amenities in notified slums, 1979

Statement V : Medical, Educational, Recreational and Cultural facilities, 1979

Statement VI : Trade, Commerce, Industry and Banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced. The columns—class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of Civic Administrative Status in Statement III and IV and population in Statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, scheduled castes and scheduled tribes population in Statement IV and adult literacy classes/centres in Statement V are identical.

In case such of the amenities as Fire Fighting Service in Statement IV, the Educational Facility in Statement V are not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with its distance from the referent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i.e., population by Religion and scheduled castes/scheduled tribes in towns of 1971 Census was discontinued at the 1981 Census and a new statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in class I and II towns only.

The following twelve places form urban areas in Adilabad district at the 1981 census

1 Adilabad	8 Mancheriyal
2 Asifabad	9 Mandamarri
3 Bellampalle	10 Nirmal
4 Bhainsa	11 Sirpur
5 Kagaznagar	12 Sriramsagar (Pochampad) Project Township
6 Kagaznagar N.M A	Left Flank Colony
7 Lakshettipet	

Of these Adilabad, Bhainsa, Kagaznagar, Mancheriyal and Nirmal are Municipalities. All others except Bellampalle, Kagaznagar Non-Municipal area and Sriramsagar (Pochampad) Project Township Left Flank Colony are Panchayat towns. Bellampalle, Kagaznagar Non-Municipal Area and Sriramsagar (Pochampad) Project township left flank colony are towns classified for Census purpose and they are Census towns.

Of these twelve towns, Lakshettipet is the only place classified as town for the first time in the 1981 Census in consideration of the distinct urban features. Adilabad, Bhainsa and Nirmal were classified as towns from 1901. Asifabad which was treated as a town at 1931 Census was declassified at 1941 Census and again it was classified as a town at 1951 census. Sirpur which was treated as town at 1931 census was declassified at 1941 census and again it was classified as town in 1951 census. At 1961 census it was again declassified as it did not fulfil the conditions to be treated as town. Once again at 1971 census it was classified as town and continued to retain its urban status. Bellampalle was treated as a town from 1941, while Kagaznagar Non-Municipal Area and Mancheriyal from 1951, and Kagaznagar, Mandamarri and Sriramsagar (Pochampad) project township left flank colony from 1971.

There is no class I town in Adilabad district. Adilabad town is the most populous in the district with a population of 53,482 falls under the class II category (Population 50,000-99,999). The class III towns with the population range from 20,000 to 49,999 are Bellampalle, Bhainsa, Kagaznagar Non-Municipal Area, Mancheriyal, Mandamarri and Nirmal, Asifabad and Kagaznagar form class IV category of towns (Population 10,000-19,999) while Lakshettipet and Sirpur are class V towns with a population between 5,000-9,999. Sriramsagar

(Pochampad) project township left flank colony is only class VI town the population of which is less than 5,000 persons. The urban population of the district is 316,983 out of total population of 1,639,003 persons thus constituting an urban population of 19.34% for Adilabad district as against 15.9% urban at 1971. The increase in proportion of urban is partly due to the addition of one new census town at 1981.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio from 1961 to 1981 censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements, columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the state and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like M (Municipality), P (Panchayat) etc. The location code number under Col 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq kms. and number of households including houseless households for each town is included in the Town Directory for the first time at 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in columns 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (Col 16) introduced to facilitate analysis of Town Directory Data. It has been calculated taking into account the area and the

population of 1981 Census of the town and presented per sq km Sex-ratio from 1961 to 1981 Censuses has been given in Cols 17 to 19 This is also a new addition to facilitate analysis of Town Directory Data. Sex ratio is defined as number of females per 1,000 males

The influenza epidemic that prevailed throughout the State in the decade 1911-21 had resulted in a decrease in the population of Adilabad, Bhainsa and Nirmal Bhainsa had recorded again a decrease in the growth of its population in the decade 1931-41 There has been steady growth in the population in the successive censuses The variation in population between 1971 and 1981 seems to be more conspicuously high in Mandamarri, Adilabad, Mancheriyal, Kagaznagar and Bhainsa when compared to other towns

Of the twelve towns in the district, Mancheriyal is the only town having an area of 41.44 sq kms Next to it comes Mandamarri, with an area of 38.85 sq kms The third important town as far as area is concerned is Adilabad with 20.07 sq kms.

Sriramsagar (Pochampad) Project Township left flank colony with an area of 0.10 sq km records the highest density of 14,450 persons per sq. km as against the district average density of 102 persons per sq. km Adilabad the district headquarters town has recorded a density of 2,665 persons per sq km

Statement II : Physical aspects and location of Towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols 3 to 5 in the statement, data relating to the rainfall recorded in 1978 and the maximum and minimum temperature recorded in 1971 Census are given If this information was not available for any town, then the particulars available for that nearest town have been given against such towns.

The district is served by railways The broad gauge line only passes through Mancheriyal, Mandamarri, Bellampalle, Kagaznagar and Sirpur and two metre gauge lines including the branch line which terminates at Adilabad All the towns in the district have bus communication facility and Andhra Pradesh State Road Transport Corporation has been providing necessary transport facilities

Statement III . Municipal Finance, 1978-79

The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts

The table shows that three towns Adilabad, Kagaznagar and Mancheriyal have excess of expenditure over income. In Mancheriyal town more than 50% of the total receipts is utilised for purpose of public works and more than 25% of the total receipts is spent on public health and conveniences by Asifabad, Bhainsa, Mancheriyal, Nirmal and Sirpur towns For public institutions like Schools and Libraries not even a single town has utilised funds from their receipts, Sriramsagar (Pochampad) Project Township Left Flank Colony and Kagaznagar Non-Municipal area have no civic administration of their own. as such their particulars are not available.

Statement IV : Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The most striking feature in all the towns except Bellampalle, Kagaznagar N.M.A. and Sriramsagar (Pochampad) Project Township left flank colony has been the conspicuous absence of underground drainage system The only sewerage system available is the open surface drains in all the towns. Eleven out of the twelve towns have protected water supply through tap for their drinking and Domestic purposes In respect of Kagaznagar, this part of the information is not available. All the twelve towns have electric supply for domestic use.

In Andhra Pradesh domestic service includes supply of energy for lighting, fans and domestic purposes, in domestic premises, and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sales, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or Co-operative House Building Societies and pumpsets or Railways for whatever purpose they may be used. Commercial Service includes the supply of energy for lights, fans for non-domestic and Commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, through fares including parks, markets, cart stands, bridges and

for traffic signalling. Supply of energy to places of worship like Churches, Temples, Mosques, Gurudwaras, Educational Institutions, Student Hostels, Municipal Guest Houses, Travellers Bungalows, Circuit Houses of the Government, Charitable Institutions and recognised service institutions are included in "Others". Adilabad has the highest number of Industrial connections followed by Kagaznagar. Nirmal town has the largest number of Road lighting points and the next largest is Adilabad town.

Statement IV A : Civic and other amenities in notified slums, 1979

This is a new statement on Civic and other amenities provided to the people living in notified or recognised slums in class I and II towns. Since the magnitude of slum is greater in respect of class I and II towns, presentation of data on slums is limited to class I and II towns only. Class I towns do not figure in Adilabad district, Adilabad is only the class II town having six slum areas with a total population of 25,000 persons.

Statement V : Medical, Educational, Recreational and Cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district have hospitals except one viz., Sriramsagar (Pochampad) Project Township left flank colony where there is only dispensary with no bed facility for inpatients. There are 35 medical institutions which include Government Hospitals, dispensaries, Nursing Homes, Maternity and Child Welfare Centres and leprosy centre together with a total bed strength of 570 catering to the medical needs of a total urban population of 316,983 persons. Institutions covering all systems of medicine have been included in the statement.

Adilabad, Bellampalle and Kagaznagar towns possess medical facilities with 150, 150 and 70 beds respectively and this is comparatively better than the other towns in the district. There are 235 persons per bed in Sirpur town, 259 persons in Kagaznagar and 298 in Bellampalle.

There are only 3 degree colleges - one each at Adilabad, Mancheriyal and Nirmal. There is no Polytechnic college in the district.

There are 7 Junior Colleges or Higher Secondary Schools, 27 Secondary or High Schools, 47

Junior Secondary or Upper Primary Schools and 113 Primary Schools in all towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes, have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to class X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below.

Class I to IV	Primary
Class V to VIII	Middle
Class IX to X	Secondary
Class XI to XII	Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher Secondary i.e., class XI and XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a higher secondary school and the rest of the college has been treated as a college.

There is no stadium in the district. There are 21 cinema halls, 9 public libraries and 5 reading rooms in all the towns in the district. Four community halls are in the district, two at Kagaznagar and one each at Bellampalle and Lakshettipet.

Statement VI : Trade, Commerce, Industry and Banking, 1979

Adilabad district is industrially developing. It has rich mineral resources and abundant forest wealth. The Sirpur Paper Mills and the Sirsilk Factory in the Kagaznagar non-Municipal area, the limestone quarries and the related industry of the Associated Cement Company at Mancheriyal town, the coal mining at Bellampalle and Mandamarri townships, and the Hyderabad Chemicals and

Fertilisers at Bellampalle are among the large scale industries in the district

The large forest area of the district supports wood manufacturing industries to a notable extent

Nirmal town is a renowned traditional handicraft centre in the State. The Nirmal wooden toys and other exquisite products earned a reputation for their craftsmanship and design.

The district is served by a net work of 26 banks of which 5 are located in Adilabad, 4 in Nirmal, 3 each in Bellampalle, Bhainsa and Mancherial, 2 each in Kagaznagar non-Municipal area and Sriramsagar (Pochampad) Project township left flank colony and one each in Asifabad, Kagaznagar, Lakshettipet and Sirpur, twenty seven Agricultural Credit Societies and 213 Non-Agricultural Credit Societies are serving the total urban population of the district

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas

- 1 Location Code number and name of village/town and area
- 2 Total number of occupied residential houses and total number of households
- 3 Total population and its sex breakup
- 4 Population of Scheduled Castes and Scheduled Tribes by sex breakup
- 5 L'terate persons by sex
- 6 Total main workers (I to IX categories) and the breakup of the workers into four broad categories viz,

Category	I	Cultivators
Category	II	Agricultural Labourers
Category	V(a)	Household Industry
Category	III, IV, V(b) & VI to IX,	Other Workers and also the marginal workers and non-workers by sex

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183

days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L C Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L C Numbers is given at the beginning of each taluk which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc or where houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Adilabad district is as follows:

	Persons	Males	Females
Total	1,639,003	827,978	811,025
Rural	1,322,020	664,171	657,849
Urban	316,983	163,807	153,176

Col. No 1 & 2 indicate L.C No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Sri-kakulam district and ending with Nalgonda district. In this process Adilabad district was allotted L C No. 19. Likewise the taluks in each district were

given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L C Nos of villages were given in Arabic numerals while those of towns in Roman numerals.

Col 3 This column shows the area of villages in hectares while the area of town is given in sq kms based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P C A is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department.

Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col 4 Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5 This column includes houseless households and institutional households as well.

Cols 6 to 8: Total population includes houseless and institutional population with sex breakup.

Cols 9 to 12: Under these columns the population of S Cs, and S Ts by sex is given. A copy of the list of S Cs and S Ts in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT-V dated 27-7-1977 is appended hereunder.

Cols 13 & 14. Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Col 15 to 28. At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or

making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer A person who works in another person's land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 317,781 occupied residential houses and 322,805 households in Adilabad district compared to 248,946 residential houses and 260,439 households in 1971 registering an increase of 27.65% in number of residential houses and 23.95% in number of households.

The total number of persons returned at the 1981 census in Adilabad district is 1,639,003 as against 1,288,348 in 1971 census, thus recording an increase of 27.22% as against the state's growth rate of 23.10%. The proportions of rural and urban population to the total population in the district works out to 80.66% and 19.34% respectively in 1981 census compared to 84.00% and 16.00% in 1971. There are 980 females per every 1,000 males at the 1981 census when compared with State index of 975 females per 1,000 males. The ratio of 976 females per every 1,000 males was recorded at 1971 census.

Adilabad district returned 307,900 literates at 1981 census forming 18.79% of the total population of the district compared with 182,286 literates constituting 14.14% at 1971 census. The sex break up of literacy rates during 1981 census is 27.81% among males and 9.58% among females. Rural urban break up of literacy rates indicates 13.62% of population in rural areas and 40.33% in urban population are literates. The corresponding rural and urban rates of literacy at 1971 are 10.3% and 34.10% respectively.

In Adilabad district, there are 762,709 total workers constituting 46.54% of the total population as against 539,486 total workers forming 41.8% in 1971 census. Among males the workers constituted 57.41% while among females only 35.42% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 1,716 villages in the district at the 1981 Census as against 1,709* at 1971. Out of the 1,716 villages, 1,559 are inhabited while 157 villages are uninhabited. Six inhabited villages are reported as partly included in different towns of the district. The balance of 15 villages which are fully included in urban areas are not taken into account in arriving at the total number of villages in the district.

The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluk is also indicated in this table.

Lakshettipet taluk has more urban population than other taluks, while Mudhole taluk has the least urban population as per 1981 Census. Five taluks are returned as wholly rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

Sl No.	Name of Taluk	Population									No of Villages		No.of Towns
		Total			Rural			Urban			Total Inhabited

* As explained in detail in Statement-1, 11 villages are returned as newly sprung up during the decade. 3 villages are reported as fully included in their respective urban areas. One Reserve Forest village which was considered as village at 1971, has not been taken into account at 1981 and hence the variation over 1971.

The following table compares the taluk-wise population from 1971 and 1981 Censuses for total, rural and urban areas. Lakshettipet taluk has

recorded the highest growth rate of 44.37% during the decade 1971-81, while Sirpur taluk has recorded the lowest growth rate of 15.19%.

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned

uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1,999 population and form 46.44% of total villages in this district.

Table 3
DISTRIBUTION OF VILLAGES BY
POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3

10,000 +	3	0 19
Total	1,559	100 00

The following table presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 101-200. More than 70% of villages come under density group 51 and above. This district has returned a density of 102 persons per square kilometre as against 195 persons for the State.

Table 4
DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range

Not known	4	0 26
Total	1,559	100 00

According to 1981 Census the population of Scheduled Castes in Adilabad district is 300,421 accounting for 18.33% of the total population of the district. Scheduled Caste population in this district forms 3.77% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 59.72% of the villages have Scheduled Caste population in a percentage range above 11. Only 20.14% of villages are without Scheduled Caste population.

Table 5

Table 7 provides the total population, scheduled caste and scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to total population of the towns in the district

The total scheduled castes population in all the urban areas of the district at 1981 census was 43,857 persons representing 13.84% of the total urban population. Among the towns, proportions of scheduled castes population varies from 3.20% in Bhainsa town to 27.22% in Bellampalle town

The scheduled tribes population in urban areas of the district according to 1981 census is 4,609 persons constituting 1.45% of the total urban population. The proportions of scheduled tribes population varies from 0.46% in Kagaznagar non-municipal area to 3.22% in Sirpur panchayat town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

The following Table 8 gives the literacy rates by population ranges of villages in the district. Adilabad District occupies the last rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 1.93% of the total Andhra Pradesh literates.

Highest literacy rate of 31.45% is found in villages with 10,000+ population.

Table 8

LITERACY RATES BY POPULATION
RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
- 199	276	5.18
200 - 499	426	8.55
500 - 1,999	724	11.96
2,000 - 4,999	121	15.79
5,000 - 9,999	9	27.86
10,000 +	3	31.45
Total	1,559	13.62

The table 9 shows the literacy rates for the towns in the district as per 1981 census.

The literates in all the 12 urban areas in the district together constitute 127,830 persons forming 40.33% of the urban population. Among the towns, the literacy rate varies from 27.20% in Sriramsagar (Pochampad) Project Township Left Flank Colony to 48.64% in Lakshettipet town. Adilabad, the district headquarters town, has recorded the literacy rate of 45.29%.

Table 9

LITERACY RATES FOR TOWNS

Name of the Town	Literacy Rate
1	2
Adilabad	45.29
Asifabad	42.10
Bellampalle	38.16
Bhainsa	33.61
Kagaznagar	43.01
Kagaznagar Non-Municipal Area	48.29
Lakshettipet	48.64
Mancheriyal	40.91
Mandamarri	27.69
Nirmal	45.61
Sirpur	31.41
Sriramsagar (Pochampad) Project Township Left Flank Colony	27.20
All Towns	40.33

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. Adilabad district has returned 18.79% of the total population of the district as literates. Asifabad taluk has returned 23.67% of literates and this is the highest in the district. Nirmal taluk has returned the largest number of workers 104,252 in its rural areas accounting for 15.64% of the total rural workers of the district and 59.79% of the total rural population of the taluk. Nirmal taluk stands first among the taluks in the district in the proportion of workers to total population. Chinnur taluk has returned 31.75% of scheduled caste population while the least is in Wankadi taluk with 10.46%. In rural areas of taluks also these two only have occupied first and last steps of the ladder with 31.75% and 10.46% respectively. The percentage of scheduled caste population in urban areas range between 23.94% to 3.20% among the taluks. Utnur taluk has recorded highest proportion of scheduled tribe population with 62.09% while Mudhole taluk has the least proportion of scheduled tribe population with only 6.31%.

Distribution of villages according to the availability of different amenities by taluks is presented in this table. As seen from the table, drinking water facilities are available in all the villages, while amenities of education, power supply, P & T, approach by pucca road and communications are available in respect of 79.67%, 43.55%, 34.64%, 25.02% and 24.76% of villages

respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 9.81% of villages have medical facility and 5.00% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl No.	Name of Taluk	No of inhabited villages	No (with percentage) of villages having one or more of the following amenities

Table No 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise

27.75 per cent of population has only medical facilities while about 16.43% of the population has

access to market facilities. More than 44% of the population has power supply, P & T, approach by pucca road and communication, while 100% of the population has access to drinking water and 94% has educational facility

Table 12

The following table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is no village in this district without drinking water facility. 317 villages do not have education facility within the village, but

these are available at different distance ranges. Large number of villages do not have market, medical, communication and P & T facilities within the village, but are available at different distance ranges as this district is considered as one of the backward districts in Andhra Pradesh.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms	5-10 kms.	10+ kms.	Total (Cols 2-4)
1	2	3	4	5
1 Education	220	66	31	317
2 Medical	253	377	776	1,406
3 P & T	428	431	160	1,019
4 Market	250	397	834	1,481
5 Communication	320	410	443	1,173

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities

9% of the villages have town within the range of 0-5 kms. About 35 per cent of the villages have towns within a range of 6-15 kms. while the balance viz, 45% and 11% of villages have nearest town located within 16-50 kms. and 51 + kms respectively. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Total	1,559 (100.00)	1,242 (79.67)	153 (9.81)	1,559 (100.00)	540 (34.64)	78 (5.00)	386 (24.76)	390 (25.02)	679 (43.55)

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999 and 5,000+ are considered and the villages are distributed in these ranges. About 46% of the villages are

in the range of 500-1,999, while the villages with less than 500 and those in the range of 2,000-4,999 form 45% and 8% respectively. Only 1% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages

falling in these ranges are also on the increase As market facilities are not adequate in the villages has been observed earlier only the medical and falling in the ranges other than 5,000+

Table 15

11	Mudhole	Rice, Jowar

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 43.67% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 602,870.95 hectares, 37,033.85 hectares forming 6.14% is only tenable. Mudhole

taluk has the largest percentage of cultivable area of 68.15% while the irrigated area is only about 3.66% of cultivable area. Khanapur taluk which has the least proportion of cultivable area of 18.80% has the highest percentage of 32.76% irrigated area to total cultivable area of the taluk.

Table 17

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as in 1979

Of the 12 urban areas in the district, the highest per capita receipt is noticed in Mancheriyal Municipality (Rs 45.63) followed by Adilabad Municipality (Rs 43.14) and Kagaznagar Municipality (Rs 31.10) takes the third rank. The lowest per capita receipt is recorded in Sirpur Panchayat

(Rs 6.77). Receipts through taxes is highest in Adilabad Municipality (Rs 25.36) while this is lowest in Sirpur panchayat (Rs 3.62). From all other sources together, the highest per capita receipt is seen in Mancheriyal Municipality (Rs 20.69) followed by Adilabad Municipality (Rs 17.78) and Lakshettipet panchayat (Rs 16.39) while the lowest per capita receipt is recorded by Asifabad town (Rs 0.18).

Mancheriyal Municipality stands first among the urban areas of the district with its per capita expenditure of Rs 68.39 followed by Adilabad Municipality (Rs 44.37) and Kagaznagar Municipality (Rs 43.87). Sirpur town ranks last in per capita expenditure (Rs 6.06). The per capita expenditure of Rs 13.31 on public health and conveniences in Nirmal is the highest among the towns while Mandamarri has the minimum of Rs 1.06. No expenditure is incurred by any one of the urban areas in the district for public institutions like schools and libraries.

All the civic bodies are running on sound lines, with surplus budget except Adilabad, Kagaznagar and Mancheriyal towns which are functioning with deficit budget. Lakshettipet, Nirmal and Bellampalle are having considerably more per capita receipts than per capita expenditure.

(—) Civic status not determined

The following table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refer generally to the institutions that have been recognised by the State Govt and are authorised to teach the students for

appearing to the different grades of examinations conducted by the concerned Examination Board periodically.

There are 113 primary schools, 47 upper primary schools, 27 high schools and 7 junior colleges in all the urban areas of the district.

From the table 22 it can be seen that the number of beds available in urban areas of this district is very low being 1 83 beds per every 1,000 population. Nearly 40% of the total bed strength in the urban areas of the district is concentrated in Adilabad town. The bed-population ratio is highest

in Kagaznagar town where there are 4 36 beds per 1,000 population. Sirpur, Bellampalle, Adilabad and Asifabad towns have recorded the bed-population ratio more than the district average. All other towns have this ratio less than the district index.

Table 22

Physically handicapped persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence the data for the physically handicapped persons in our country were collected for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows:

“The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or less of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for

classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present.”

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Adilabad district is given below.

STATEMENT SHOWING THE DISTRIBUTION OF PHYSICALLY HANDICAPPED PERSONS BY TALUKS IN ADILABAD DISTRICT

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides villagewise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

- P : Primary or Elementary School (Upto Class IV)
- M : Middle School or Junior Secondary (Class V to VIII)
- H : Matriculation or Secondary School (Class IX and X)
- JC : Higher Secondary / PUC / Intermediate / Junior College
- C : College
- I : Industrial School
- Tr : Training School
- AC : Adult Literacy Class / Centre
- O : Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical (Column No. 6)

- H : Hospital
- MCW : Maternity and Child Welfare Centre or Maternity and Child Health Centre
- MH : Maternity Home
- CWC : Child Welfare Centre
- HC : Health Centre
- PHC : Primary Health Centre
- PHS : Primary Health Sub-Centre
- D : Dispensary
- FPC : Family Planning Centre
- TB : T. B. Clinic
- NH : Nursing Home

- RP : Registered Private Practitioner
- SMP : Subsidised Medical Practitioner
- CHW : Community Health Worker
- O : Others

Drinking Water : (Column No. 7)

- T : Tap
- W : Well
- TK : Tank
- TW : Tube Well
- HP : Hand Pump
- R : River
- F : Fountain
- C : Canal
- L : Lake
- S : Spring
- N : Nallah
- O : Others
- NA : Information not available

Post and Telegraph (Column No. 8)

- PO : Post Office
- TO : Telegraph Office
- PTO : Post and Telegraph Office
- Phone : Telephone Connection

Communications : (Column No. 10)

- BS : Bus stop
- RS : Railway Station
- NW : Navigable Waterway

Approach to village : (Column No. 11)

- PR : Pucca Road
- KR : Kuccha Road
- NR : Navigable River
- NC : Navigable Canal
- NW : Navigable Waterway
- FP : Foot Path

Power Supply (Column No. 13)

- ED : Electricity for domestic purpose
 EAG : Electricity for Agriculture
 EO : Electricity for other purposes like
 industrial, commercial, etc
 EA : Electricity for all purposes listed
 above

Irrigated by source : (Column No 16)

- GC : Government Canal
 PC : Private Canal
 W : Well (without electricity)
 WE : Well (with electricity)
 TW : Tube Well (without electricity)
 TWE : Tube Well (with electricity)
 TK : Tank
 R : River
 L : Lake
 WF : Water Fall
 O : Others
 T : Total

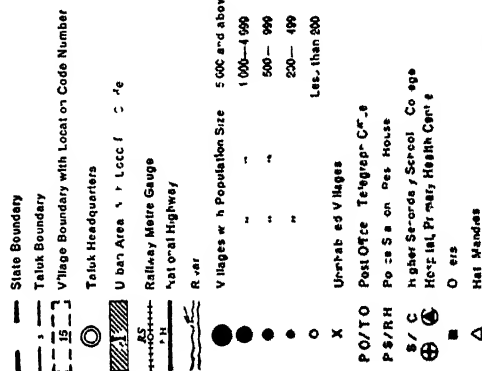

Remarks, etc (Column No 20)

- N : Copies of the News Papers (coming in
 the village)
 M : Motor Cycles/Scooters
 C : Cars/Jeeps
 T : Tractors

As an example an entry showing figures like P(2), or D(2), or T(35 21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35 21 hectares and extent of land irrigated by water from tanks is 35 21 hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz , — 5 Kms. 5-10 Kms. and 10 + Kms. of the nearest place.

SECTION II - Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns

In the Statement I Col 2 to denote the civic status of town the codes used are :

Municipal Corporation/ Corporation	M. Corp
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col 6 to differentiate category of road the following abbreviations are used

Pucca road	PR
Kuccha road	KR

Under Col 7 to specify the system of sewerage the codes given are .

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col 11 the various prevalent methods of disposal of night soil are given with the following codes

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town

In Statement V under Col 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T.B Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1.2), D (Hom.-2, U-1)

Here H(A-1, 2), represents one ayurvedic and 2 allopathic hospitals and D (Hom -2, U-1) represents 2 homoeopathic and 1 unani dispensaries

The Codes used for the Col. 6 are as follows:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets

Short-hand	SH
Typewriting	Type

Shorthand & Typewriting	Sh Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed College, Teacher's Training institutes, Music / Dancing School, Nursing School, etc., are covered under "Others "

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. Schools upto Class VIII are treated as Junior Secondary or Middle School Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc

Under Col 20 the abbreviations given are as follows -

Public Library	PL
Reading Room	RR
